PROFESSIONAL SUMMARY

Systems Analyst and Software Developer with over 3 years of experience designing and developing **REST APIs** and backend solutions with **.NET (C#)**. Currently working in the banking sector as a Project Co-Lead, providing technical leadership, performing **code reviews** and taking part in architecture decisions focused on scalability, quality and continuous improvement. Solid knowledge of **relational databases**, **Clean Architecture**, **SOLID** principles and the **Microsoft Azure** ecosystem (Azure DevOps, Azure API Management). I complement backend with frontend experience (React, Vue) and personal projects. Consolidating as a **semi-senior developer** with a focus on **technical leadership (Tech Lead)**. Available for full-time positions and freelance projects.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET 8 / 9 / 10, .NET Framework, ASP.NET Core, REST APIs

Architecture & Best Practices: Clean Architecture, DDD, SOLID, Clean Code, Code Review

Databases: PostgreSQL, MySQL, Oracle (PL/SQL), SQL

Cloud & DevOps: Microsoft Azure, Azure DevOps, Azure API Management (APIM), Docker, Kubernetes, CI/CD

Frontend: React, Vue, TypeScript, HTML, CSS

Tools & Collaboration: Git, GitHub, GitLab, Postman, Draw.io, Microsoft Teams, Agile Methodologies

PROFESSIONAL EXPERIENCE

Backend Developer · Project Co-Lead

Mar 2025 – Present

Banco Continental SAECA — Centro Logístico de Tecnología S.A. (CLT)

- Development and maintenance of **REST APIs in .NET** for the cards area system of Banco Continental.
- Technical leadership of the cards logistics module: task coordination, code reviews and developer mentoring.
- Execution of **service migrations to .NET 9 and .NET 10**, improving maintainability and performance.
- Management of the API lifecycle in **Azure API Management** (publishing, versioning and governance).
- Optimization of **SQL** queries and definition of technical validations prior to deployment.
- Version management and deployments with **Azure DevOps** (Git, branching, CI/CD).
- Requirements analysis and design of technical solutions focused on scalability.

Technical Support & Developer

Jun 2022 – Feb 2025

CITech

- Development of desktop applications and **REST APIs in .NET** applying Clean Architecture.
- Analysis and gathering of technical and functional requirements with clients.
- Direct technical support and incident resolution for end users.

FEATURED PROJECTS

Ecommerce / Point of Sale API (personal project)

- Modular POS and ecommerce system adaptable to different businesses: products, stock, purchases, sales, cash register and invoicing.
- Backend in **.NET 10** with **PostgreSQL**, Entity Framework Core and permission-based **JWT** authentication; mobile app in React Native.

CERTIFICATIONS

ASP.NET Core & Clean Architecture with DDD (Part 2) — .NET University (25 h)	2025
Master RESTful API with ASP.NET Core Web API (.NET 9) — render2web (13.5 h)	2025
Bootcamp: Building APIs with .NET, Docker and Kubernetes — CLT S.A. (25 h)	2025–2026
Clean Architecture in C# .NET — Héctor de León (10 h)	2025
SOLID Principles and Clean Code — DevTalles (6.5 h)	2025
Advanced Oracle PL/SQL — Apasoft Training (10.5 h)	2025
JavaScript Basics for Beginners — Mosh Hamedani (6.5 h)	2025

EDUCATION

Information Systems Analysis — Universidad Católica Ntra. Sra. de la Asunción
Thesis candidate · Scholarship from ITAIPÚ (knowledge competition)

LANGUAGES & SOFT SKILLS

Languages	Soft skills
Spanish (native) · Guaraní (advanced) · English (intermediate)	Technical leadership · Effective communication · Decision-making · Teamwork · Time management
